NANDAN MANJUNATH NAIK

Mandya, Karnataka, India |+918431976921|nnaik5253@gmail.com|github.com/Nandan6626|linkedin.com/Nandan-naik | Portfolio

Software developer skilled in full-stack development, Python, FastAPI, AI agents, LangGraph, and microservices, with a strong foundation in DSA and problem-solving. Passionate about designing scalable, efficient applications and leveraging modern technologies to solve real-world challenges.

SKILLS

Languages: C, C++, Python, JavaScript
Core CS: Data Structures & Algorithms, OOP, Operating Systems, DBMS, Computer Networks
Full-Stack Development: React.js, Node.js, Express.js, FastAPI, REST APIs, Pydantic
Databases & Cloud: MySQL, PostgreSQL, MongoDB, Supabase, AWS (EC2, S3)
DevOps & Architecture: Docker, Microservices, Distributed Systems, CI/CD, Git/GitHub
AI & Development Tools: Agentic AI, LangGraph, GitHub Copilot, Cursor, Claude Code, Testing & Debugging

EXPERIENCE

Software Engineering Intern Apr 2026 - May 2026
TalenciaGlobal

- Developed RESTful APIs using Python, FastAPI, Pydantic, and SQL within a microservices architecture.
- Containerized applications using Docker and leveraged AI-assisted tools for debugging and development
- Built AI workflows using LangChain and contributed to code reviews, testing, and secure development practices

Cybersecurity & AWS Project Trainee Aug 2025 - Sep 2025
Employability.life

- Deployed and configured AWS infrastructure using EC2 and S3, implementing IAM access controls and least-privilege security practices.
- Applied cloud security fundamentals and threat mitigation techniques to strengthen infrastructure security.
- Collaborated on cloud-based backend solutions and independently resolved technical challenges.

PROJECTS

MediGuardian AI - Healthcare Monitoring System | Python, FastAPI
https://medi-guardian-ai.vercel.app/ github.com/Nandan6626/medi_guardian_ai

- Developed a healthcare monitoring product for elderly users, featuring medication tracking, scheduled reminders, missed-dose alerts, and caregiver access.
- Built backend APIs for health monitoring, notifications, and AI-driven insights to support proactive care and timely intervention.

SkillBridge - Intelligent Workforce Management Platform | React.js, FastAPI, PostgreSQL,
github.com/Nandan6626/SKILLBRIDGE

- Developed a fullstack platform for customer service booking, worker discovery, and company recruitment, supporting distinct user workflows.
- Implemented REST APIs, Google OAuth, role-based access control, and a Trust Score mechanism to streamline hiring and improve worker credibility.

Chaduranga - Chess Tournament Management System - React.js, FastAPI, Supabase

- Built a tournament management application featuring automated Swiss-system pairings, round management, and live standings.
- Engineered the pairing algorithm, backend APIs, and database models to streamline tournament operations; published the research in a peer reviewed, Scopus-indexed journal.

EDUCATION

B.E. in Computer Science and Business Systems (CSBS) 2023 - 2027
PES College of Engineering, Mandya *CGPA: 8.33/10*

ACHIEVEMENTS & CERTIFICATIONS

Research Publication

- **Chaduranga**: Published a research paper in a Scopus-indexed journal. https://thegrenze.com/abstract/journal/7895
- **SkillBridge**: Published “SkillBridge: An Intelligent Workforce Management Platform” and presented the research paper at ICSIE 2026; received publication and presentation certificates.

Innovation Recognition: Recognized under PES Next Incubation & Innovation for Chaduranga

Certifications: NPTEL Elite - Data Analytics with Python (2026); Coursera - Introduction to Artificial Intelligence, Computer Networks, and Machine Learning with Python.
